

SALT CAREER TASTER

On November 7th, the Year 9 students travelled to Wyalkatchem to participate in a SALT (Supporting and Linking Tradeswomen) Career Taster Workshop. Students got to experience using tools such as drop saws and jigsaws to make a wooden caddy. They were taught about the concept that you never know when you may use different skills in the future! We look forward to the students building as many skills as possible over the next year, to hopefully provide many, many windows of opportunity further down the track.

CUNDERDIN AG TRADE TRAINING DAY

On Thursday the 16th of November the year 9/10 students travelled to Cunderdin Agricultural College for the trade training day. Our students chose between automotive, engineering, carpentry and construction. Everyone got to build something in engineering and carpentry to take home. In construction our students learned how to lay bricks, while the automotive students changed a wheel bearing and by the sounds of it, revved the engine a lot. In-between sessions the students went on the farm tour, which included holding piglets and for one lucky student some piggy poo on her shirt. The students then enjoyed a lovely lunch with the current year 11's. With six out of our current year 10's heading to Cunderdin Ag next year it was a great experience for them and our year 9's who might be considering the move in 2025.

WHAT'S ON?

- | | |
|-----------|------------------------------------|
| Nov 20-24 | Canberra Camp (High School) |
| Nov 27 | Year 5/6 Maths Day |
| Dec 1 | Good Standing Reward Day |
| Dec 5 | Year 6 Transition Day |
| Dec 6 | Regional First Lego League Fun Day |
| Dec 6 | Graduation Dinner |
| Dec 13 | Presentation Night 6pm |
| Dec 14 | Students Last Day |
| Jan 31 | Students First Day 2024 |
